Notes:

1. In certain circumstances, the minimum front-yard setback may be less than or greater than what is stated if setback averaging applies. See the referenced section of the zoning code for applicable standards.
2. If the lot width for a existing lot is less than what is required, the side-yard setback may be reduced proportionately to the ratio between the actual width and the required width, provided the side-yard setback is reduced to not less than 75 percent of the required setback.
3. If a parcel abuts a more restrictive zoning district, the setback shall be the average of the minimum setbacks for the two districts.
4. An institutional building (e.g., governmental office, or school) may exceed the height limitation established for the zoning district, up to a maximum height of 45 feet, provided the minimum required side-yard and rear-yard setbacks are increased one foot for each additional foot of height in excess of the permitted maximum of the district.

5. Pursuant to the procedures and requirements contained in Article 7 of this chapter, the Plan Commission may allow more than the specified floor area when one or more of the accessory buildings on a lot are designated as a rural accessory building.
6. Pursuant to the procedures and requirements contained in Article 7 of this chapter, the Plan Commission may allow more accessory buildings than what is specified when one or more of the accessory buildings on a lot are designated as a rural accessory building.
7. Multi-family requirements: Efficiency unit: 500 sq. ft.; One bedroom: 650 sq. ft.; Two bedrooms: 800 sq. ft.; and Three bedrooms: 1,000 sq. ft.
8. For a nonconforming lot due to lot size, the standard is increased 10 percent.
9. The front yard setback may be more than what is stated if the standards in ch. TRANS 233, Wis. Stats., apply.
